4 Attaching the pen tray

4-A Attaching the pen tray to the board is optional. Turn the board over - the pen tray attaches to the back of the board. The installed bottom brackets must be removed temporarily to attach the pen tray - refer to Figure 4. Retain the screws for the bottom brackets so you can re-attach them.

4-B Align the holes in the pen tray with holes drilled on the back of the board. Re-attach bottom brackets. Additional holes are drilled into the pen tray and back of board - use the small screws and tighten with an allen wrench (included).

5 Mounting the board

5-A Rotate the top hangers counter-clockwise so that they will not interfere with the placement of the board on the wall.

5-B Place the boards bottom brackets into the bottom hangers on the wall.

5-C Push the board against the wall and rotate the top hangers clockwise so that they lock into the top brackets.
