- Adult supervision recommended.

Parts List
BEFORE ASSEMBLING, MAKE SURE YOU HAVE ALL THE PARTS

A Cot Ends (12)
B Poles (12)
C Cot Netting (6)

1 Insert two Poles into a Cot End
Insert the squared end of two Poles (B) in the square receivers of a Cot End (A) as shown, until it is fully seated in the receiver.

2 Insert the Cot Netting onto Poles
Insert the Poles (B) through the long pockets on the sides of the Cot Netting (C) until they are exposed on the other end of the long pockets.

Note: The Hook & Loop should be facing the underside of the cot, toward the feet of the Cot End (A).
Insert the two flaps of the Cot Netting (C) through the Cot End (A) and secure the Hook & Loop.

See Next Page
3 Install Cot End and Secure Cot Netting

Insert the opposing Cot End (A) onto the squared end of the two Poles (B).

Insert the two flaps of the Cot Netting (C) through the Cot End (A) and secure the Hook & Loop.

Cot Handling Instructions
Cots are designed to be un-stacked by lifting with 2-hands, from the center of the COT, in a vertical motion. By following this stacking and un-stacking procedure, you will ensure many years of use for your cots.

Lifting the cot from the ends or sides creates an un-stable and un-safe condition for the person lifting and will put undue stress on the Cot Corners & Poles, which may cause them to break.
